Description:

Nautica IMO CF is a thermal insulation with a tough, paintable, white fiberglass facing. It is generally used on bulkheads, decks and stiffeners.

It is approved by both the U.S. Navy (MIL-I-742 Type I) and the U.S. Coast Guard (USCG 164.112/0059/0) for thermal applications on ships. It can also be used in mechanical rooms in commercial buildings.

Installation is with insulation pins and clips, and joints can be covered with fiberglass lagging tape.

Specifications:	U.S. Coast Guard: 164.109/164.112 U.S. Navy: MIL-I-742
Standard Sizes:	1" x 24" x 48" (160 sf/ctn) 2" X 24" 48" (80 sf/ctn)
